Education

Auckland University of Technology

Bachelor of Computer and Information Science -
Software Development Major 2017 – 2021 (Graduated)

Projects

NZ Nutrition Foundation Recipe Mobile App (Flutter) – 2021

- Developed a cross-platform mobile application using **Flutter** and **Dart** in a team of 5 to encourage nutritious cooking among youth.
- Implemented cloud storage, user authentication, and back-end data architecture natively using **Firebase**.
- Managed feature deployment timelines via weekly **Scrum** sprint cycles and gathered client feedback through biweekly consultations.

European Bike Sales Analytics Pipeline (SQL and Power BI) - 2026

- Engineered a relational database inside **PostgreSQL** using **DataGrip** to clean, stage, and structure multi-year retail sales datasets.
- Established an active data pipeline connecting the local server natively to **Power BI**, enabling instantaneous data refreshes.
- Developed an executive dashboard utilizing custom **DAX measures** to track dynamic profit margins and isolate high-value age demographics.

Experience

Robogals Auckland – Volunteer

April 2021 - May 2021

- Delivered STEM workshops and taught LEGO MINDSTORM EV3 programming to classrooms of 30+ students

Countdown - Long Life Assistant- Nightfill

February 2022 - September 2023

- Efficient inventory and time management
- Reliable and collaborative teamwork

Technical Skills
